### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

On page 17, in line 1 of the specification, delete "5B" and insert -15B--.

3. The following is an examiner's statement of reasons for allowance: None of the prior art of record, alone or in combination, discloses an obturator with, inter alia, an elongate tubular member, a blade mounted within the tubular member, and actuating mechanism connected to the blade, where the actuating mechanism comprises a rotary element and a release, wherein a force applied to the release slideably rotates the rotary element to disengage the release, causing the blade to advance beyond a slot in the tubular member and, when force is applied distally to the release, the release slideably rotates the rotary element to engage the release, causing the blade to retract into the slot.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Schwartz (5,391,177) teaches an obturator with a blade.
